Profile

Experienced Frontend Developer with over a year of proficiency in software development, specializing in React JS, JavaScript, Next JS, and React Native. I excel in developing user-friendly applications and have a proven record of successful projects through strong teamwork.

Professional Experience

2022/10 – present Mumbai, India	**Software Developer** *Boppo Technologies* ⧉

- I have actively contributed to the development of three ongoing projects and provided assistance in three additional projects, employing various front-end technologies. I've successfully built and launched projects that are currently live and in use online.
- Additionally, I have extensively researched and utilized various libraries to enhance the projects' functionality and user experience of web applications.
- Effectively integrated APIs, managed errors, and optimized code for improved performance. Conducted thorough code reviews, providing valuable feedback to enhance overall code quality.

Projects

Dollarbull ⧉
US based Trading Platform
- Designed user interfaces for new modules, created custom Graph and video players, and integrated multiple APIs and widgets like Trading View.
- Optimized code and implemented robust error handling, resulting in improved website performance scores across multiple tests.
- Implemented encryption to restrict visibility of new modules solely to specific IP addresses, ensuring a secure and controlled development environment.
- Technologies used - Next JS, JavaScript, Typescript, Tailwind, HTML, CSS, Docker, GIT

Keydemand ⧉
Real Estate Leasing Platform
- Designed and implemented dynamic user interfaces featuring interactive tables and graphs, improving the overall user experience and data visualization.
- Created PDF templates for easy data extraction and download. Used libraries to convert and download webpage data directly into PDFs.
- Implemented various functionalities as per client requirement.
- Technologies used - React JS, JavaScript, SCSS, Tailwind, HTML

Personal Projects ⧉
